

We understand that pet med compliance can be problematic.

We solve medication problems everyday!

Introducing a NEW compounding dosage form...

micR Meds™

MicroMeds are pillable tabs so tiny, you just might miss them! Get your magnifying glasses out because they are only 3mm wide. They also come in 6mm size. They can be flavored to the animal's preference and are sticky once in the mouth making it difficult to spit out!

Swallow them!

Chew them!

Hide them! *(if necessary)*

**Available exclusively at
Professional Arts Pharmacy**

**Call 337-991-0101 to see if
MicroMeds is an option for your pet.**

128 Curran Lane Lafayette, LA
